A. 85051
Translucent freestanding
divider without a graphic

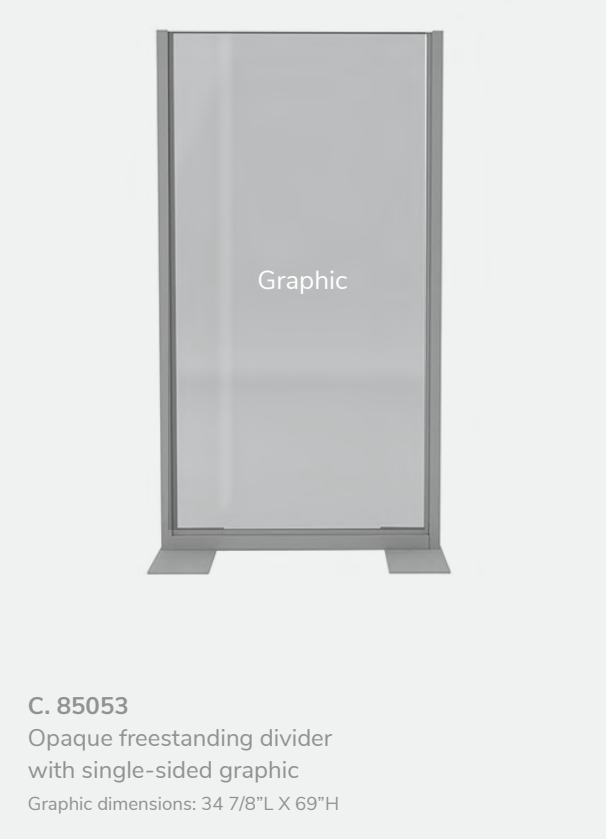

Freestanding dividers

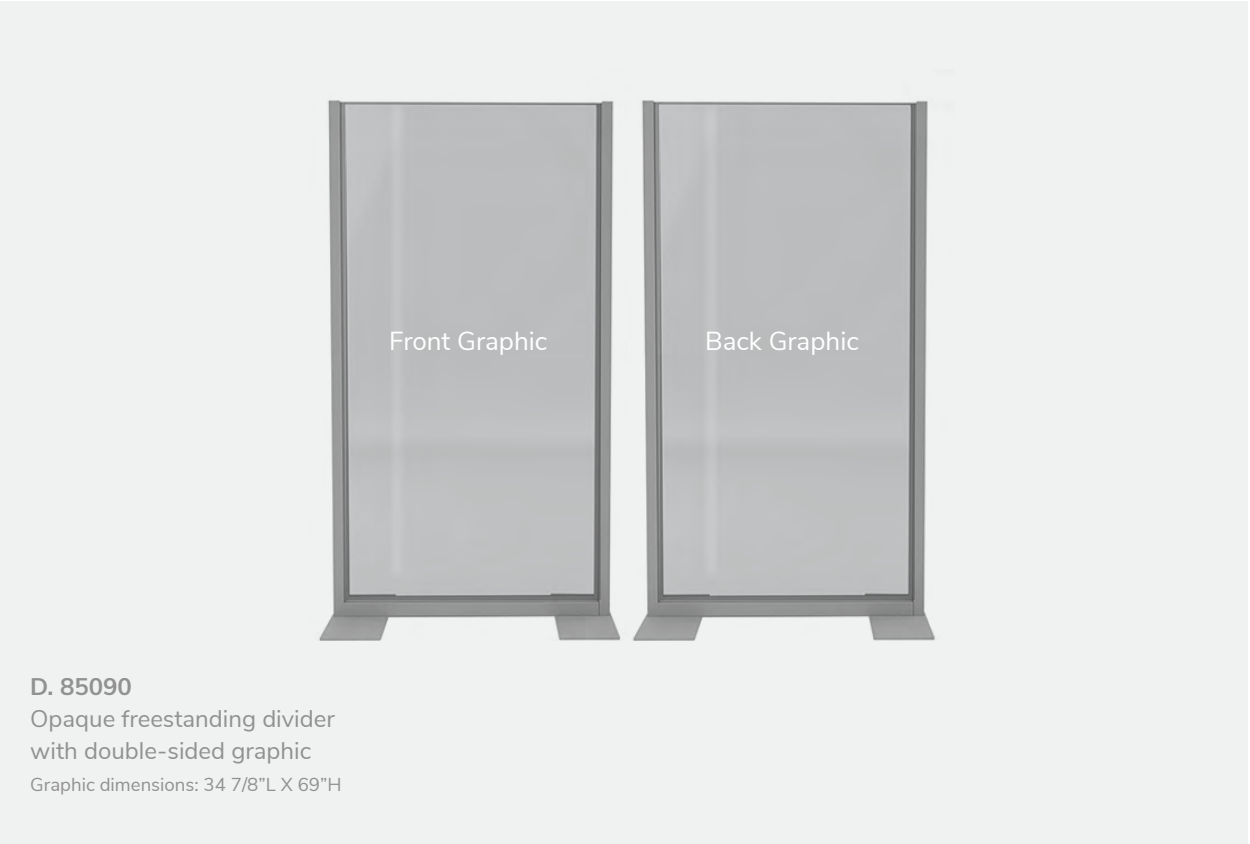

Stay connected and create a sense of well-being while dividing space within your exhibit with a 39” wide freestanding divider. This versatile divider provides additional protection for attendees and may be used between ottomans or placed between chairs to help maintain physical distance. Graphic personalization is available.

D. 85090
Opaque freestanding divider
with double-sided graphic
Graphic dimensions: 34 7/8" L X 69" H

Connecting panels

Use these connecting panels to create wall dividers within **your exhibit**. These 39" wide freestanding dividers can create semi-private, safe meeting spaces or separate your booth space from the aisles.

Featuring a metal frame, stable base plates, and a connector to link together, this versatile divider provides additional protection for attendees and may be used in a straight line or adjoined with the corner configuration to help maintain physical distance. Corner configuration options are available on the next page. Add graphics for a custom look.

Opaque corner divider with double-sided graphics
Graphic dimensions: 34 7/8"L X 69"H

**Clear countertop
guards will provide
a quick-to-assemble
means of dividing
the space.**

Countertop guards

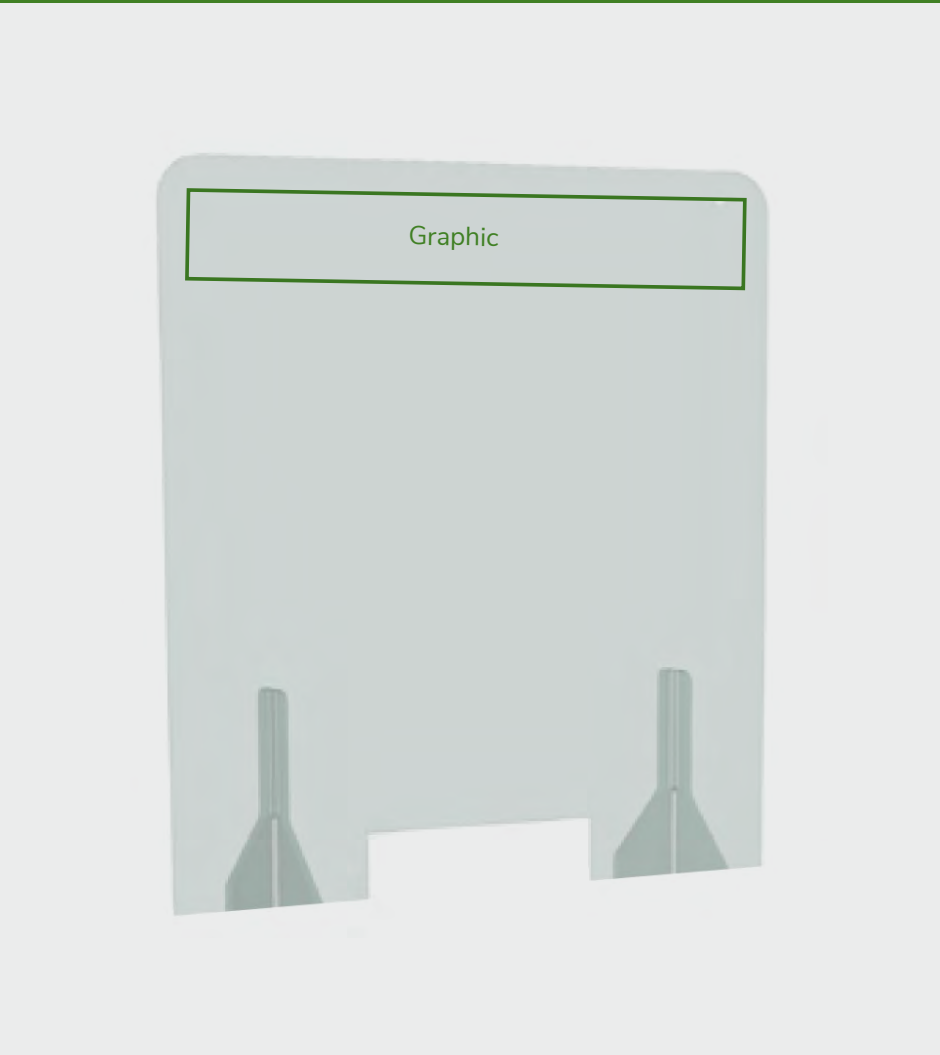

Clear countertop guards will provide a **quick-to-assemble means of dividing the space** between a service counter attendant and an attendee. These guards are ideal for flat surface applications like desks, draped tables, or showcases.

The panels are designed from rigid 1/4" plexiglass with clear feet for complete visibility and fast tool-less assembly.

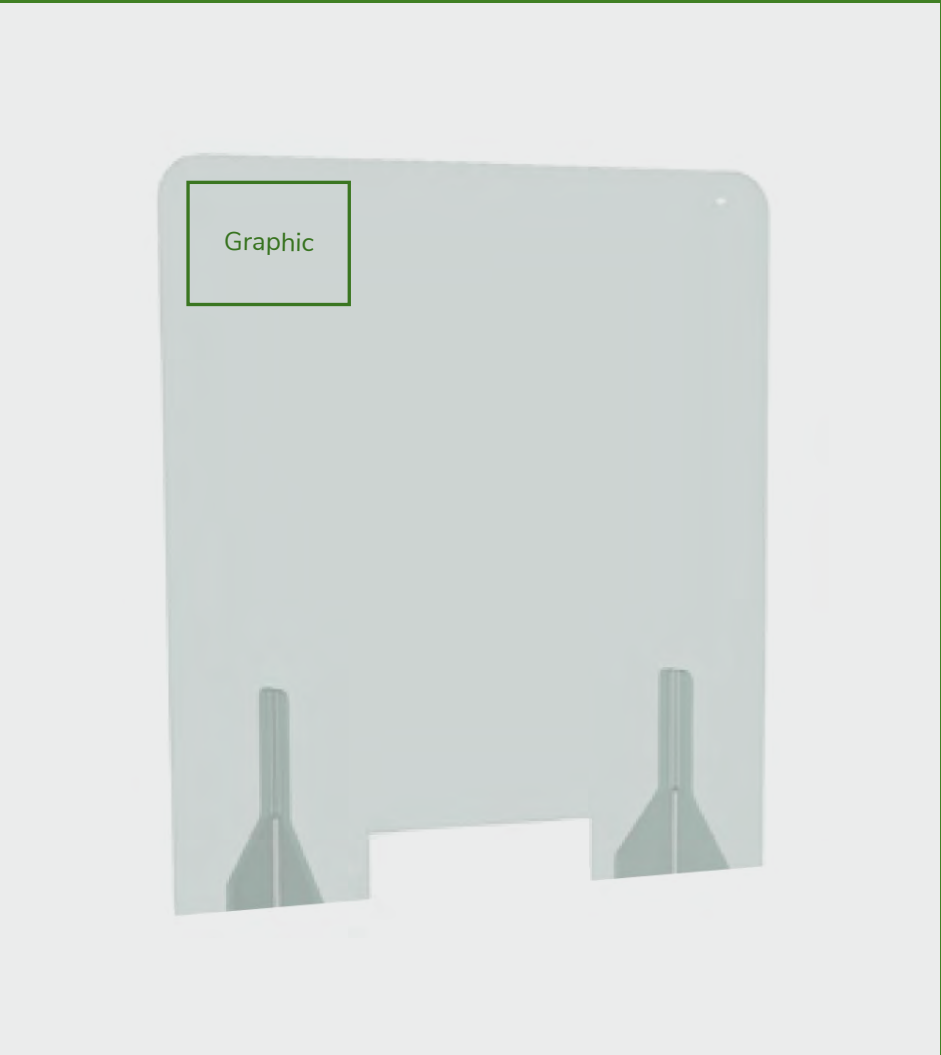

SmartCounter guard graphics

Mobile whiteboard
42"L X 72"H

B. 85091
Freestanding whiteboard
39 5/8"L X 1 1/2"W X 72"H

C. 220121
Chrome stanchion

Comes with a retractable 8' belt to help you control your booth traffic.

Sanitization products and services

A.Hand sanitizer stand

Using hand sanitizer reduces microbial counts and kills many harmful germs that could compromise the health of attendees with COVID-19 and other viruses. Hand sanitizing stations provide convenient access to hand sanitizer after interactions where they happen.

B.High-touch surface cleaning

Disinfection and sanitization wipe down of all common high-touch surface areas (chairs, countertops, and tables) with cleaning solution that meets GBAC standards.
